

What will I learn?

The IELTS (International English Language Testing System) examination is an ideal test for those students who are planning to study with us to prepare for a university course.

The Academic IELTS examination is recognised as an entrance requirement by British, Australian, Canadian and New Zealand universities as well as for secondary, vocational and training programmes worldwide. This examination allows you to achieve an international qualification in academic English, as well as giving you proof of your English abilities for employers and visa purposes.

Our IELTS course prepares students for the academic training modules which assess in four competencies: writing, speaking, listening and reading.

Course Overview

Our IELTS teachers will prepare you for the four components of the IELTS exam – writing, reading, speaking and listening.

As part of the course you will have a schedule of different learning activities such as class discussions,

report writing, lectures and mock exams to complement your classwork. You will also do regular examination practice under examination conditions to help you acquire good exam techniques. Throughout the course, you will receive feedback, correction and advice as well as homework that is specifically developed to help you improve your reading and writing, which are considered to be the most challenging sections.
