Our lessons are scheduled to supplement learning after-school and during weekends, following the Cambridge English Primary Method, together with the Oxford University Phonics, and our bespoke interactive on-screen activities.

Methodology

Cambridge Primary Path is an English language and literacy course which will help young learners become articulate writers and speakers of English, empowering them to make the most of life's opportunities. Through its three essential pillars, Cambridge Primary Path offers a truly effective approach to learning.

The comprehensive literacy-based approach ensures students receive essential language support alongside literacy training so they become fully literate in English. The ground-breaking research-based oracy framework enables students to become confident, collaborative speakers. The creativity principles encourage students to become better thinkers and problem solvers... while enjoying themselves!

The advice that I give to my students is to always work on themselves and be confident in their English, even when they feel they are making mistakes. It is very important to have confidence and to always try your best. **The students that really improve are those who push themselves and are not afraid.**
